Mosuo Bambu is the fruit of a partnership between the NGO Sinal do Vale, the social enterprise ZEBU Midias, and a group of young people in the periphery community of Rio de Janeiro called Santo Antonio, led by the micro-entrepreneur Orlando.
Mosuo Bambu is an initiative of the regenerative economy that connects the preservation of ecosystems with the reduction of social inequality through youth job creation.
The first product launched by the initiative is a business card made from the sheath leaves of bamboo, produced with no chemical additives and 100% biodegradable. The cards are artisanal and unique for each client.
By purchasing a business card from Mosuo Bambu, you will be supporting:

- The partnership of innovative social entrepreneurs with young people from a low income community

- The training of young people in the new abilities needed for a regenerative economy

- The health of the Atlantic Rainforest Ecosystem
Be a part of this new regenerative economy!

Order a business card from Mosuo Bambu.

Minimum request 250 cards | Price: $200.00
